

Possible Career Outcomes

- ★ Server Support Technician
- ★ Network Administrator
- ★ Information Security Analyst
- ★ Database Administrator
- ★ Security Systems Administrator

Program Description

Dive into the future of cyber security with our IT Systems Administrator program, designed to arm you with industry standard certifications from EC-Council and CompTIA, including Certified Network Defender and Computer Hacking Forensic Investigator. Through expert-led courses and hands-on labs, you'll master network security, threat analysis, and defense strategies, becoming ready to secure networks and systems against cyber threats. This program is your gateway to a career in cyber security, offering the skills to protect and manage digital environments like servers and cloud based solutions. Enhance your employability with globally recognized skills. Join our IT Systems Administrator program to become a critical player in defending against cyber attacks and ensuring forensic readiness in an increasingly digital world.
